

School Partners by Chicago Community Area 2026-27

Communities In Schools (CIS) of Chicago partners with 265 of the city's public schools, more than 40 percent of the entire district. At all schools, we connect students with a range of programs and resources across health, wellness, and academic support, and at 40 of our partner schools, we embed a master's level mental health professional to provide intensive one-on-one support for students facing the biggest obstacles.
